Our Beginner ASL Course will accommodate both new and previous beginner level students by including new beginner level material! Explore a new world of communication by learning American Sign Language (ASL)! ASL is the fourth most commonly used language in the U.S., and learning ASL can open new lines of communication between hearing and hearing impaired individuals. Additionally, studies have shown that learning the ASL signs for letters and words can help children with spelling and vocabulary skills. The students will learn the signs for basic vocabulary terms and sentences in a fun, child-friendly environment. Parents are invited to join us on the last day of class for a Parent's Day demonstration.
